Experience

Distribution Center Analyst at MillerCoors

Golden, CO Aug 2015 - May 2016

- Managed inventory levels for the Golden Distribution Center.
- Adjusted customer orders with substitutable products, mitigating finished good loss, and collaborated with supply planning to ensure sufficient product supply.
- Mapped weekly shipment plan, and created and documented a year-end process to meet shipment targets to close out 2015.

Customer Service Analyst at MillerCoors

Golden, CO Aug 2015 - May 2016

- Analyzed distributor and warehouse inventory levels as well as monitored shipments to minimize out of stocks and ensure timely delivery of product to distributors.
- Managed customer relationships with a positive attitude and integrity.
- Examined changes to sourcing network to lower transportation costs and maintain pristine service levels.

Client Data Management at Morgan Stanley

Baltimore, MD Oct 2012 - Feb 2015

- Led the decommissioning of a legacy reporting, which reduced the scope of the data migration by 70% by investigating user account activity with IT, client service, and external users.
- Coordinated with project managers, finance executives, trading desks, risk teams, and compliance to coordinate the on-boarding of new and existing Prime Brokerage clients.
- Executed client launches by providing accurate product accounts, reporting and technology access.
